## **DETAILED ACTION**

### ***Terminal Disclaimer***

The terminal disclaimer filed on 3/9/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of Patent Number 6,814,725 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Specification***

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: "needle holding means".

### ***Claim Rejections - 35 USC § 112***

Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear from the claim and the specification if the needle holding means in claim 1 should really be recited as the needle coupling means as defined in the specification.
